Open access források

Chengshi Wang et al.: [Autonomous platform for solution processing of electronic polymers](#) (2025)

DOI: 10.1038/s41467-024-55655-3

Adatbázis: Nature

Geng-Fu He: [Uncertainty quantification in tree structure and polynomial regression algorithms toward material indices prediction](#) (2025)

DOI: 10.1017/dce.2025.5

Adatbázis: Cambridge University Press

Matilde Fiori: [Solute transport due to periodic loading in a soft porous material](#) (2025)

DOI: 10.1017/jfm.2025.189

Adatbázis: Cambridge University Press

Nasser A. M. Barakat et al.: [Advanced strategies for enhancing kaolin ceramics using nanostructured additives: A comprehensive study](#) (2025)

DOI: 10.1371/journal.pone.0324449

Adatbázis: ProQuest Central

Yadong Li et al.: [Study on friction properties of carbon-ceramic composites prepared by CVI and PIP combined processes](#) (2025)

DOI: 10.1088/1742-6596/3008/1/012007

Adatbázis: ProQuest Central

Xinghua Shen et al.: [Improvement of mechanical properties of biomimetic-layered Si₃N₄ ceramics with TiN as the interface layer](#) (2025)

DOI: 10.1002/ces2.10248

Adatbázis: ProQuest Central

H. Yazdani Sarvestani et al.: [High-Performance Polymer-derived Ceramics in LCD 3D Printing](#) (2025)

DOI: 10.1002/advs.202416176

Adatbázis: ProQuest Central

Stéphane Gorsse et al.: [Sustainability indicators in high entropy alloy design: an economic, environmental, and societal database](#) (2025)

DOI: 10.1038/s41597-025-04568-x

Adatbázis: Nature

Andrzej Piotrowicz et al.: [Microscopic and quantitative characterization of germanium-indium bearing by-product from heavy metal metallurgy](#) (2025)

DOI: 10.1038/s41598-024-82790-0

Adatbázis: Nature

Qjurui Ma et al.: [A novel synergistic efficient inhibitor of Camellia oleifera fruit shell extract with sodium dodecylbenzene sulfonate for steel corrosion in sulfamic acid](#) (2025)

DOI: 10.1016/j.jmst.2025.02.077

Adatbázis: ScienceDirect

Bugra Karahan et al.: [Advancements in cold spraying for polymer matrix composites: enhanced LSP and EMI shielding performance — review and future directions](#) (2025)

DOI: 10.1186/s40712-025-00223-w

Adatbázis: SpringerLink

Devon R. Richman et al.: [Analysis of Standards-Based Counterfeit Microelectronics Detection Methods](#) (2025)

DOI: 10.1109/ACCESS.2025.3526518

Adatbázis: IEEE Xplore

Yunyu Shi et al.: [Aspartame Endowed ZnO-Based Self-Healing Solid Electrolyte Interface Film for Long-Cycling and Wide-Temperature Aqueous Zn-Ion Batteries](#) (2025)

DOI: 10.1007/s40820-025-01765-6

Adatbázis: SpringerLink

Xinyi Shi et al.: [Dual-constricted plasma arc cladding of Inconel 625 alloy: arc characteristics, microstructure, and corrosion resistance](#) (2025)

DOI: 10.1186/s40712-025-00262-3

Adatbázis: SpringerLink
